

PROFESSIONAL SUMMARY

Freelance Graphic Designer, Illustrator, and 3D Artist with experience creating brand identities, apparel graphics, marketing assets, UI designs, and product visualizations for startups and digital products. Experienced in translating business goals into compelling visual solutions across digital and print media. Skilled in branding, digital illustration, 3D modeling, texturing, and user interface design, with a Computer Science background that strengthens problem-solving, workflow efficiency, and collaboration within multidisciplinary teams.

PROFESSIONAL EXPERIENCE

XRWorkout | Graphic Designer & Creative Operations Associate *New York, USA (Remote) | Apr 2025 – Present*

Led creative production for marketing, product, and user-facing digital assets across multiple company initiatives. Designed visual materials that supported brand consistency, user engagement, and product communication. Created interface concepts and design assets for internal and external business needs. Collaborated with product and development teams to align visual design with business objectives. Supported recruitment, onboarding, scheduling, and operational coordination across distributed teams. Contributed to content production pipelines for weekly XR fitness experiences.

Upwork | Graphic Designer & Illustrator *Portugal (Remote) | Contract | Apr 2024 – Jun 2025*

Designed and delivered over 50 apparel graphics for a Portuguese clothing startup. Developed the company's visual identity, including logo design and branding assets. Created print-ready artwork optimized for commercial production workflows. Collaborated directly with stakeholders to transform concepts into market-ready visual products.

CREATIVE PROJECTS

Ataraxia UI Design (Personal Project)

Designed the visual interface and user experience for a social productivity platform that combines virtual workspaces, music streaming, communication tools, and task management.
Tools: Figma, Krita, Blender

Apparel Design Collection (Commercial Project)

Created a large-scale collection of apparel graphics for a startup clothing brand, including concept development, illustration, 2D and 3D product mockups used for marketing materials.
Tools: Krita, Adobe Photoshop, Blender
